

## IN THE CLAIMS

This listing of claims replaces all prior versions, and listings, of claims in the application.

1. (Previously Amended) A method comprising: feeding an animal food and a liposome-encapsulated anti-lipase antibody.
2. (Previously Amended) The method of claim 1 wherein said anti-lipase antibody is an avian antibody.
3. (Previously Amended) The method of claim 2 further comprising at least one of storing said liposome-encapsulated anti-lipase antibody in a wet state and freeze drying said liposome-encapsulated anti-lipase antibody.
4. (Previously Amended) The method of claim 1 wherein said animal is a mammal.
5. (Previously Amended) The method of claim 1 wherein said animal is an avian.
- 6-11. (Canceled).
12. (Previously Presented) The method of claim 1 further comprising forming said liposome-encapsulated anti-lipase antibody prior to said feeding.
13. (Previously Presented) The method of claim 1 wherein said animal food comprises dietary lipid.
14. (Previously Presented) The method of claim 1 wherein said animal food comprises 25 to 1000 mg of said liposome-encapsulated anti-lipase antibody per kilogram of animal food.

15. (Previously Presented) The method of claim 1 wherein said animal food comprises at least 25 mg of said liposome-encapsulated anti-lipase antibody per kilogram of animal food..

16. (Previously Presented) A composition, comprising: a mixture of food for an animal and a liposome-encapsulated anti-lipase antibody.

17. (Currently Amended) The composition of claim 16 which contains 25-1000 mg of said liposome-encapsulated [[avian]] anti-lipase antibody per kilogram of said food.

18. (Previously Presented) The composition of claim 16 wherein said anti-lipase antibody is an avian anti-lipase antibody.

19. (Previously Presented) The composition of claim 16 wherein said liposome-encapsulated anti-lipase antibody is in one of a wet state and a freeze dried state.

20. (Previously Presented) The composition of claim 16 wherein said food is food for a mammal.

21. (Previously Presented) The composition of claim 16 wherein said food is food for an avian.

22. (Previously Presented) The composition of claim 16 wherein said food comprises dietary lipid.

22. (Previously Presented) The composition of claim 16 wherein said food comprises at least 25 mg of said liposome-encapsulated anti-lipase antibody per kilogram of animal food.

23. (Currently Amended) The composition of claim [[16]] 22 wherein said anti-lipase antibody is an avian anti-lipase antibody.

24. (Previously Presented) A method of making a composition, said composition comprising a mixture of food for an animal and a liposome-encapsulated anti-lipase antibody, said method comprising:

forming said liposome-encapsulated anti-lipase antibody;

mixing said liposome-encapsulated anti-lipase antibody with said food.

25. (Previously Presented) A composition comprising a liposome-encapsulated anti-lipase antibody.

26. (Previously Presented) The composition of claim 25 wherein said anti-lipase antibody is an avian anti-lipase antibody.

27. (Previously Presented) The composition of claim 25 wherein said liposome-encapsulated anti-lipase antibody is in a freeze dried state.

28. (Previously Presented) A method of making a liposome-encapsulated anti-lipase antibody comprising:

forming said anti-lipase antibody; and

encapsulating said anti-lipase antibody with liposomes to form said liposome-encapsulated anti-lipase antibody.

29. (Previously Presented) The method of claim 28 wherein said anti-lipase antibody is an avian anti-lipase antibody.

30. (Previously Presented) The method of claim 28 further comprising freeze drying said liposome-encapsulated anti-lipase antibody.

31. (Previously Presented) A method of using a liposome-encapsulated anti-lipase antibody comprising:

feeding said liposome-encapsulated anti-lipase antibody to an animal.

32. (Previously Presented) The method of claim 31 wherein said anti-lipase antibody is an avian anti-lipase antibody.

33. (Previously Presented) The method of claim 31 further comprising freeze drying said liposome-encapsulated anti-lipase antibody.

34. (Previously Presented) The method of claim 31 further comprising mixing said liposome-encapsulated anti-lipase antibody with food for said animal.

35. (Currently Amended) A method of making a composition comprising:  
providing a solution including anti-lipase antibodies; and  
adding liposomes to said solution to make ~~a new solution~~ a solution containing said liposomes.

36. (Currently Amended) The method of claim 35 further comprising freezing said ~~new solution~~ solution containing said liposomes.

37. (Currently Amended) The method of claim 35 further comprising freeze drying said ~~new solution~~ solution containing said liposomes.

38. (Currently Amended) A composition formed by a process comprising:  
providing a solution including anti-lipase antibodies; and  
adding liposomes to said solution to make ~~a new solution~~ solution containing said liposomes.

39. (Currently Amended) The composition of claim 38 wherein said process further comprises freezing said ~~new solution~~ solution containing said liposomes.

40. (Currently Amended) The composition of claim 38 wherein said process further comprises freeze drying said ~~new solution~~ solution containing said liposomes.

41. (Currently Amended) A method of using [[the]] a composition of claim 38 formed by a process comprising:

\_\_\_\_\_ providing a solution including anti-lipase antibodies; and  
\_\_\_\_\_ adding liposomes to said solution to make a solution containing said liposome encapsulated anti-lipase antibodies; and

further comprising feeding said composition to an animal.
